Your baby's first smile, your child's first steps, their little hand in yours... These precious moments pass so quickly.

To help preserve these cherished memories, Imprints offers you a clay impression of your child's hands and feet.

Imprints are handcrafted, beautifully presented clay impressions of your little one's hands and feet.

### Professional service

Taking a hand and foot imprint requires skill and experience. Imprints' dedicated Print Takers will take your child's imprint by gently pressing their hands and feet into our soft clay.

### Expertly crafted

At our workshop, skilled craftspeople lovingly enhance the clay impression. The imprint is then glazed, fired and finally mounted in a custom made shadow box frame.
